

FCC,

Thank you for your time in reading my comments. I am writing on behalf of the AIR 1 community (100.7 and 90.3) of Riverside. I am a professor at California Baptist University in Riverside. My students as well as myself have enjoyed and are spiritually fed by the Christian music on Air 1. It truly is a positive alternative to the sexual and degrading music that is in our society today. Would you take a moment to listen to the moral and values that are displayed in the music? There are no alternative radio stations that provide college students and youth with an influence of morals and spiritual values in a contemporary setting (ie. Christian rock). Please take the considerations I share to heart. If there is any further information needed, such as personal testimonies of youths lives being changed through AIR 1, or any other means to direct your decision from putting Air 1 off the air, please feel free to contact me at California Baptist University at (951) 343-4508.

Respectfully,

Monica Patino
Assistant Professor of Kinesiology
